

STUDY IN SHIZUOKA

Overseen by the staple Japanese symbol Mt. Fuji, Shizuoka is conveniently located at the midpoint between Tokyo and Kyoto. Full of modern culture and history, natural resources and technology, Shizuoka is an ideal location for individuals looking for a stress-free educational and research environment, authentic Japanese experience, and an affordable, liveable, and friendly community with big city amenities.

Natural Gift

Shizuoka, in the south, is graced with a coastline that extends from the Izu Peninsula to Suruga Bay and the Sea of Enshu along the Pacific Ocean. It is also bordered in the north by the Southern Alps, with peaks that rise more than 3,000 meters above sea level. The beauty of this geographic gift has attracted many residents in Japan's history including the first Tokugawa shogun, who called Shizuoka home over 400 years ago.

Japan's Industrial Center

Shizuoka is the home of a number of global corporations such as SUZUKI, YAMAHA, and HONDA. The Hamamatsu city is internationally known as "the city of manufacturing" and "the city of music," producing the largest share of the world's top-tier quality musical instruments. Other industries such as agriculture and tourism also make great contributions in increasing Shizuoka's global presence.

Housing

The University offers all international students affordable housing. The monthly rent is approximately 20,000 JPY. In addition to the current dormitories, a brand-new dorm building opened in both Shizuoka and Hamamatsu in March, 2016. High-speed internet access is available in each unit, and a multi-purpose space is provided for the residents to congregate and socialize.

ASIA BRIDGE PROGRAM

Join the World's Top Minds in Science and Technology.

As a leading Japanese national university, Shizuoka University offers you unparalleled opportunities to work closely with faculty members who are renowned both for their excellence in teaching as well as their exceptional scholarship and research. With state-of-the-art facilities, an interactive learning environment, and hands-on professional experiences in research, the Graduate School of Integrated Science and Technology intensively trains you to join the world's top science and technology innovators.

Join the World's Top Minds in Science and Technology.

In 2015, Shizuoka University, a leading Japanese national university, launched a unique industry-academia collaborative program called Asia Bridge Program (ABP). ABP offers master's degree programs in English for students to develop academically, professionally, and personally. Working closely with Shizuoka-based global corporations, the program is designed to educate future global leaders for business and society. The curriculum emphasizes a well-rounded interdisciplinary education with a focus on a combination of technical expertise, business sense, scientific thinking, and interpersonal skills through which students grow as liaisons between Shizuoka and their home countries.

ABP HIGHLIGHTS

- Courses offered in English
- Scholarships and Financial Aid
- Industry-Academia Collaborative Curriculum
- Comprehensive Career Assistance

TWO CAMPUSES

Shizuoka Campus:

Department of Science
Department of Agriculture

Hamamatsu Campus:

Department of Informatics
Department of Engineering

MASTER'S DEGREE PROGRAMS

Graduate School of Integrated Science and Technology	
Department of Informatics	Informatics Course
Department of Science	Mathematics Course Physics Course Chemistry Course Biological Science Course Geoscience Course
Department of Engineering	Mechanical Engineering Course Electrical and Electronic Engineering Course Electronics and Materials Science Course Applied Chemistry and Biochemical Engineering Course Mathematical and Systems Engineering Course Management of Business Development Course
Department of Agriculture	Biological and Environmental Science Course Applied Biological Chemistry Course Environment and Forest Resources Science Course

TUITION AND FINANCIAL AID

ABP master's students who hold passports from the countries and regions listed below are eligible for the ABP tuition aid, which covers the examination fee, the enrollment fee, and the 1st year's full tuition. The financial support for the 2nd year's tuition will be awarded according to each individual academic performance during the 1st year.

	Application Fee	Enrollment Fee	Tuition (for the first year)
ABP Students	Waived	Waived	Waived
Other International Students	30,000 JPY	282,000 JPY	535,800 JPY

*The table shows the tuition and other fees from 2016.
The exact amounts are subject to change without notice.

16 countries and regions

Bangladesh, China, India, Indonesia, Korea, Laos, Malaysia, Mongol, Myanmar, Nepal, Philippines, Singapore, Sri Lanka, Taiwan, Thailand, Vietnam

CAREERS

With the unique industry-academia collaborative curriculum, students are linked to a wide range of global companies through a number of on- and off-campus events such as internships, lectures, seminars, and workshops. We offer individual counseling from the first year of the program to establish a clear career path toward graduation.

● The following companies are examples of employers of our alumni:

AEON MALL, AISIN, Ajinomoto Healthy Supply, Brother, Canon, DENSO, dwango, Fuji Electric, FUJITSU, Hamamatsu Photonics, HITACHI, Honda Motor, JATCO, KDDI, Kewpie, Kikkoman, Koito Manufacturing, KYOCERA, Mitsubishi Chemical, NEC, NGK Insulators, Nissan Motor, NTT, NTT Data, NTT DoCoMo, OMRON, Paloma, Panasonic, Ricoh, ROHM Semiconductor, Seiko Epson, SoftBank, Sony, SUZUKI MOTOR, Suzuyo, TOSHIBA, Toyota Motor, Yamaha Motor, Yazaki
